

Hey Tatyana,

It's me, Merlin (formerly Baikal)! Life has been a wild adventure since I went home with my mom and dad in March and I've been loving every minute of it. When I came home, I was barely nervous and went straight to exploring my new home. After all, I had **so many toys** to play with—how could I not love it here!

Today, my favorite activities include sprinting through my tunnels, scratching my giant cactus, climbing my cat trees, nightly zoomies, and getting lots of kisses from my mom and dad. I love smoochies. My parents make sure to shower me with attention and cuddles all day long. And at night, we all like to watch movies together and snuggle on the couch. They also do a great job of reminding me that I'm the most handsome boy in the world... which, obviously, I am.

heights! That can sometimes make my mom nervous, but she's always there to help me down.

Overall, I love my life. My parents tell me that I'm the best thing to happen to them and I feel the same way. We make the best team and I can't wait to see what adventures we go on next!

Thanks for helping me find my family.
Love, Merlin "The Chosen One" Whitehouse

P.S. Mom wants me to let you know that I was neutered on June 12 and that doctor says I am a very healthy, growing boy!
